LEWMAR hatches and portlights

Made of anodized aluminium and fitted with smoked glass lenses, 180° opening, self-locking in any position with their built-in friction lever.
 Features: - Internal and external opening handles already installed (where fitted). Lock vent position. Anti-intrusion safety lock.
 Lenses, seals, handles and friction levers can be replaced.

Custom hatches made upon request, quantity TBA

LEWMAR Low Profile hatch

CE The profile sticks out as little as 25 mm from the deck. CE-approved for AREA 2.
 External handles allow the hatch to be opened from on the deck, friction levers to hold the lid open in any position up to 95°.
 Anodized aluminium frame for corrosion resistance and curved upper frame profile for strength.
 Large quantities available in white or mirror-polished aluminium finish.

LEWMAR®

Max New Light anti-scratch restorer for polycarbonate surfaces

Specific product to restore worn-out, scratched, opacified and yellowed portlights, hatches, Plexiglas or polycarbonate windscreens to their original look. Sprayed on the worn-out surface, it creates an ultra-resistant, ultra-adhering and UV-resistant film that restores the original polish. It doesn't alter the chemical structure or mechanical properties of the substrate. Three-component product to be sprayed (spray nozzle included).

Code	Description	Surface to be treated
19.117.01	Plexiglass/polycarbonate restorer	5/6 m ²

OSCOLATI

LEWMAR vent

Made of reinforced plastic, it ensures air circulation and prevents water seepage. It can be fitted to the acrylic lens of hatches or to the deck. Universal model complying with the CE ISO 12216:2003 standards.

Code	Outer Ø mm	Recess bore mm

DOMETIC SkyScreen blinds and flyscreens

SKYSCREEN provides a unique solution to shading boat hatches by combining a 100% blackout blind and a separate flyscreen within one unit. A 3-layer blind fabric combines 100% blackout and 80% heat reflection in a waterproof, UV-resistant, low maintenance, blind fabric.

SkyScreens available in standard and custom sizes on demand, tailored to fit any hatch.

DOMETIC SkyScreen Roller Surface 2 roller blind and flyscreen - surface mounted

Entry-level system for hatches to be installed on the surface of the cabin internal coating:

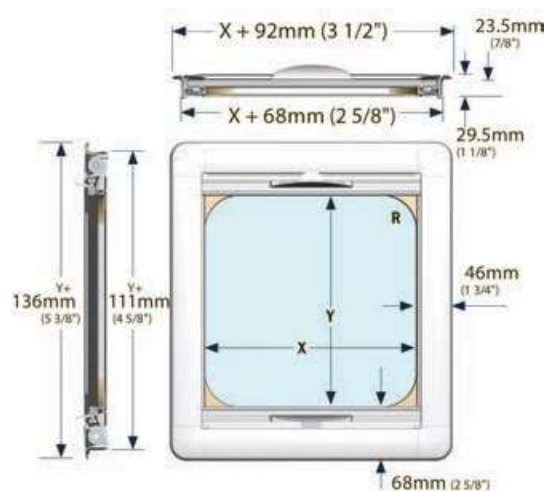

- 100% blackout blind and flyscreen (both white) combined in one low profile and modern design PVC unit.
- User-friendly magnetic locking between blind and flyscreen.
- Optional to be ordered separately: flexible liner 19.809.05/20.

Standard or custom sizes available on demand and tailored to fit any hatch. Frame colour: white (RAL9016), beige (RAL9001) available on demand.

Accessories for windshield wipers

Two-speed windshield wiper control switch

Code	Description
19.752.28	For 12V windshield wipers fitted with automatic return to standby position

Universal smart switch for windshield wiper

12/24 volt universal voltage, LED backlighting, same look and recess fit size as the genuine USA CARLINGSWITCH items.

Version for 1 windshield wiper

Functions: On/off position, 3 intermittent levels indicated by LED lights, 2 speed modes (if the windshield wiper is fitted with any), Washing cycle, Blade automatic return to standby position, Dimmer port to adjust the light intensity level.

Version for 2 windshield wipers

Functions: On/off position, Automatic synchronization of the 2 wipers, Either wiper can be activated independently, 3 intermittent level, 2 speed modes (if the windshield wiper is fitted with any), Washing cycle, Blade automatic return to standby position, Dimmer port to adjust the light intensity level.

Version for	For current max 4A*	For current max 15A*	Frame (optional)
1 windshield wiper	19.754.01	19.755.01*	14.197.01
2 windshield wipers	19.754.02	19.755.02*	14.197.01

A power relay box is supplied in addition to the switch
* For all engines

New

Smart control panel for windshield wipers - universal

Control system including a control panel + relay box connected via a CAN BUS cable with 2 plugs. The 2-wiper unit has 1 input while the 3-wiper unit has 2 inputs and 8 poles (in parallel) that can be used together or alone.

Functions:

The windshield wipers can be activated singularly or all together, 3 intermittent levels (4 with a one-speed motor), 1 or 2 continuous speed levels, Parking cycle, Synchro wipers for all speed levels, Automatic washing cycle, A second panel can be added for a second station. Internal fuse with auto reset for each motor, Reverse pole protection.
