OUR SYMBOLS

To make it easy to see the differences in our products, there are a number of symbols in the catalogue. These show, among other things, whether the vest is approved for offshore sailing, its weight bearing capacity and whether the inflation is automatic or manual.

Good fit, comfort, carefully selected materials and EN / ISO certification come as standard with all our models!

Approved in accordance with World Sailing OSR regulations.

Equipped with Sprayhood/Light/AIS attachment point.

Indicates buoyancy.

Indicates size of CO₂ cylinder.

Indicates automatic or manual inflation.

Approved according to the EN ISO/15027 standard for thermal protection.

Turns quickly into a safe face up position.

Equipped with integrated safety harness approved according to EN ISO/12401.

Opening for easy AIS/PLB access.

NFC tag for easy access to information and manual via smartphone.

Light weight product.

Hydration pack pocket

Indicates one or more splits in the buoyancy material for a better fit.

Indicates longer or shorter model.

Product equipped with dual or single detachable crotch strap.

Product prepared for crotch strap.

Buoyancy concentrated to front and back for free arm movements, making it suitable for paddling.

Product equipped with retroreflective patches for higher visibility.

Product equipped with whistle approved according to EN ISO/12401.

Available in sizes from 25kg up.

Indicates length of jackstay and buoy lines.

Indicates length and attributes of safety lines.

Garment with water repellent properties.

Garment with taped seams for greater water resistance.

Quick drying material with high breathability.

4 way stretch makes the garment extra flexible.

Indicates product guarantee in years.

ENVIRONMENTAL INITIATIVE

REDISCOVERED CLASSICS
DESIGNED FOR THE FUTURE

Our sustainability journey is ongoing, across many aspects of Baltic's business operations. It is in our vision to always be at the forefront of product design and development, and this applies to our sustainability work. We believe that transparency is very important, so our customers get a deeper understanding of us and why we make the choices we do. We are passionate about the experiences people have on rivers, seas and oceans and we are particularly keen that what we do as a business limits the impact we have on the environment. Sustainability and safety must go hand in hand so that we can continue to feel safe when we are out enjoying nature.

Our goal, which we are working towards, is that 50% of our products should be made from fully or partially recycled material by 2025. The recycled life jackets mean 23-24% less carbon dioxide emissions compared to traditional life jackets made from non-recycled material.

The materials are carefully selected, without compromising in the least on quality and safety. The polyester fabric is made from recycled PET bottles and the floating material is Polyethylene, recycled from industrial waste. The buckles and straps will continue to be made from non-recycled material as there is no certified alternative to these components at the moment. Baltic's long-term goal is that these life jackets should contain 100% recycled material when the necessary certifications are in place, always without compromising your personal safety.

SUSTAINABILITY IN FOCUS AMONG THIS YEAR'S NEWS

We are very proud that we are now further expanding our range of products made using recycled materials, known as the Baltic Environmental Initiative range. In fact, all the new products coming in 2024 are part of this initiative as together, we continue to drive development forward.

INFLATABLE LIFEJACKETS

Inflatable lifejackets are among the safest product to use when you are out on the water as long as you maintain and care for them correctly. Inflatable lifejackets function using a CO₂ cylinder that must be replaced each time the lifejacket has been inflated. The cylinder has no specific expiry date but it should be checked regularly ensuring that it has not been pierced or corroded and is screwed in tightly. The automatic lifejacket has a sensor once fully immersed it activates and inflates the lifejacket. The sensor should also be checked that it is within the expiry date and screwed on tightly. All inflatable lifejackets both Manual and Automatic models have a manual pull cord.

An inflatable lifejacket must always be the outermost garment, this is to ensure the lifejacket is not constrained from inflating and that water can activate the sensor.

It is important to adjust the waistband so that the lifejacket fits correctly to the body. A poorly adjusted lifejacket tends to transfer the weight onto the collar, whereas a well-adjusted lifejacket can be worn all day without any discomfort to the shoulders and neck. Our most popular model of inflation mechanism is automatic, it ensures that the vest inflates by itself when you fall into the water.

Manual inflation lifejackets tend to be used by among others, anglers who stand in flowing water, regatta sailors and rescue personnel who are swimmers, who sometimes require entry into the water without buoyancy.

LEGEND | SUPERB FIT AND COMFORT

This inflatable lifejacket is available in most variants with buoyancy from 165N to 305N and with or without a safety harness. Legend sits further out on the shoulders and further back from the neck than other models. This shape in combination with soft and flexible materials makes for a very comfortable lifejacket. Harness models are approved for ocean sailing in accordance with the World Sailing OSR, equipped with woven loop and airy mesh lining in the back. All variants have inspection windows and detachable crotch straps.

EPIQ | SAFETY FOR THE FUTURE

NEW 2024

Explore our latest additions to the Baltic Environment Initiative (E.I.) inflatable lifejackets! Introducing the Epiq 165, a sporty design with superior comfort available in three variations. These vests are all lightweight and feature mesh lining at the neck for added comfort. In addition, they are made using recycled materials, making them a more sustainable option for sailing enthusiasts. There are two variants with a harness loop, one of which has a Hammar release that is well suited for extreme conditions. Take your safety and style to the next level with these inflatable life jackets from our E.I. collection.

LIFEJACKETS 100N

A lifejacket is designed to aid the wearer to turn onto the safe back position and support the head so that the airways are above the surface. Therefore it makes it the obvious choice for all non-swimmers. All Baltic lifejacket models for new-born up to and including 15/20 kg are fitted with a wider crotch strap that can be clicked into two length positions to ensure a perfect fit. Several models have segmented front panels so that they contour to the body and give freedom of movement.

A lifejacket has more buoyancy on the front and less on the back, this ensures the lifejacket turns the wearer into the safe back position. The collar of the vest has nothing to do with the actual turning but helps to support the head so that the airways are above the water:

All our lifejackets are equipped with crotch strap, retro-reflective patches and a whistle, and are approved to 100N standard.

There is also a model with integrated safety harness for the little ones, these harnesses are tested and approved according to EN ISO 12401 and have stainless steel D-rings for attaching a safety line.

OCEAN HARNESS LIFEJACKET

FEATURES:       

COLOUR AND ART NO:

SIZE: 3-15 kg (Baby), 15-30 kg (Child), 30-40 kg (Junior)

DESCRIPTION:

A lifejacket for children and juniors with integrated CE approved safety harness with a stainless steel D-ring front and back for lifeline attachment. Size 3-15 kg has D-ring only on the back. Fitted with whistle, retro-reflective patches and crotch strap.

PRO SAILOR LIFEJACKET

FEATURES:       

COLOUR AND ART NO:

SIZE: 3-10 kg (Baby), 10-20 kg (Child), 15-30 kg (Child), 30-40 kg (Junior), 40-50 kg (Junior), 50-70 kg (M), 70-100 kg (L), 100+ kg (XL)

DESCRIPTION:

Excellent fit due to the smaller tolerance size range. The two smallest sizes have a beaver tail crotch strap. Size 3-10 kg has twin fastening points for the best possible fit. Fitted with retro-reflective patches, whistle and a grab handle under the collar on the three smallest sizes.

SPLIT FRONT E.I. LIFEJACKET

FEATURES:        

COLOUR AND ART NO:

SIZE: 3-15 kg (Baby), 15-30 kg (Child)

DESCRIPTION:

Split Front is the life jacket for our future sailors. Made from partly recycled fabrics, without compromising on quality or safety. The split buoyant material makes it a comfortable life jacket for the little ones.

SPLIT FRONT LIFEJACKET

FEATURES:       

COLOUR AND ART NO:

SIZE: 3-15 kg (Baby), 15-30 kg (Child)

DESCRIPTION:

The split front panels give this lifejacket a very comfortable fit. Features include retro-reflective patches, whistle and crotch strap. A grab handle under the collar. Size 3-15 kg has a beaver tail design crotch strap with twin fastening points.

BAMBI LIFEJACKET

FEATURES:       

COLOUR AND ART NO:

SIZE: 3-12 kg (Baby)

DESCRIPTION:

Bambi is designed for new born babies up to the weight of 12 kg. The Bambi quickly turns the child into a safe back position. Extra soft material throughout the vest. Fleece-lined neck. Fitted with whistle, retro-reflective patches and two position crotch strap.

BAMSE LIFEJACKET

FEATURES:       

COLOUR AND ART NO:

SIZE: 3-10 kg (Baby), 10-20 kg (Child), 15-30 kg (Child)

DESCRIPTION:

Our popular lifejacket Skipper has teamed up with the world strongest bear Bamse and his friends! These beloved characters are featured in prints on the front and back. As a certified 100N lifejacket, this product is equipped with high visibility fabric, crotch strap, whistle and retro-reflective patches.

DESCRIPTION:

Excellent fit due to the smaller tolerance size ranges. Features include retro-reflective patches, whistle and crotch strap.

BUOYANCY AIDS 50N

Buoyancy aids approved to the 50N standard keeps the user afloat by a good margin and are suitable for swimmers weighing at least 25 kg. A wide product range assures vests suitable for most activities in, on and around the water.

It is important to choose a buoyancy aid according to fit and activity. The fact that the vest sits properly on the body and does not slide up is more important than the correct weight range on the label. This makes the vest more comfortable to use and easier to swim in.

We have divided our 50N vests into two categories; Active and Allround. All products are approved, use quick-drying materials and a well thought through design.

ACTIVE | SUITABLE FOR ACTIVITY

Active is a category of 50N vests suitable for just that - activity. Common themes across these products are that a great deal of time has been dedicated into its function and solutions that adapt the vest to both the user and the activity. These vests are suitable for sailing, paddling and a wide range of watersports.

In this category you find the Baltic Extreme, a buoyancy aid perfect for all types of sailing. An adaptable model with good fit and soft materials. Pocket on the front, protective neoprene covers the adjustable straps. The mesh in the back makes the vest feel airy against the body and makes it comfortable to wear even in tough conditions.

EXTREME BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 40-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL)

DESCRIPTION:

A buoyancy aid perfect for all types of sailing. An adaptable model with good fit and soft materials. Pocket on the front, protective neoprene covers the adjustable straps. Mesh in the back makes the vest feel airy against the body. A pocket for a hydration pocket is fitted on the back.

HERA E.I BUOYANCY AID

NEW 2024

FEATURES:

COLOUR AND ART NO:

SIZE: 40-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL)

DESCRIPTION:

Introducing the Hera E.I to the collection. Hera E.I is a 50N buoyancy aid for active females on the water. The wider chest section makes it comfortable, particularly for women with a larger bust size who previously have had trouble finding buoyancy aids that fit well and is comfortable. The Hera E.I. is a sporty design with a slim fit.

DINGHY PRO BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 25-40 kg (XS), 40-50 kg (S), 50-70 kg (M), 70-80 kg (M/L), 80-90 kg (L), 90+ kg (XL)

DESCRIPTION:

Specialist dinghy racing buoyancy aid. Used by a numerous national teams in the International Optimist Class. Zipped front pocket. Extra soft foam makes it the dinghy sailors favourite buoyancy aid. Adjustable Velcro waistband with over the head and side entry.

ADVENTURE BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 30-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL)

DESCRIPTION:

Perfect buoyancy aid for fishing and wildlife exploration. Three zipped pockets. Two large mesh pockets on the back. Multi point attachment fitting and retro-reflective patches on the shoulders.

RADIAL E.I. BUOYANCY AID

NEW COLOR

FEATURES:

COLOUR AND ART NO:

SIZE: 25-40 kg (XS), 40-50 kg (S), 50-70 kg (M), 70+ kg (L/XL)

DESCRIPTION:

Radial is re-launched made from partly recycled fabrics, emitting 23% less CO2 emissions than its precursor. Radial is a PFD made for active life on the water like kayaking or SUP. Comfortable and easy to wear for water activities. Crotch strap on smaller sizes.

X4 BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 30-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL)

DESCRIPTION:

Together with experts in kayaking, we have developed the X4 buoyancy aid. Evenly distributed buoyant material and adjustable shoulders and sides makes this vest barely noticeable during use. Two pockets on the front and storage for a hydration pack on the back.

CANOE BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 40+ kg (One Size)

DESCRIPTION:

Classic robustly made and designed paddler buoyancy aid. Especially suitable for hire use. Net pocket on the chest. Crotch strap. Reinforcement tape over the shoulders.

CANOE HYDRO BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 40+ kg (One Size)

DESCRIPTION:

Classic robustly made and designed paddler buoyancy aid. Back pocket designed to hold a hydration bottle. D-rings on the shoulders to retain the hydration tube and to attach hat, sunglasses etc. Deep pocket on the chest. Crotch strap.

SUP ELITE | MAXIMUM MOBILITY

BALTIC introduces a series of buoyancy aids designed for Stand Up Paddle boarding, developed in collaboration with instructors and professional designers with extensive experience in the sport. The vests are designed to provide maximum mobility for the arms and make it easy to get up on the board from the water.

SUP ELITE BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 30-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL), 90+kg (XL)

DESCRIPTION:

A buoyancy aid developed specifically for Stand-Up-Paddleboarding. SUP Elite is the ultimate buoyancy aid for those who paddle long distances and want to be able to carry a hydration pack and extra clothes. The buoyancy aid has a long body, which is well suited for SUP use.

SUP PRO BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 30-50 kg (S), 50-70 kg (M), 70-90 kg (L), 90+ kg (XL), 90+kg (XL)

DESCRIPTION:

A buoyancy aid developed specifically for Stand-Up-Paddleboarding. SUP Pro is designed to give the user maximum mobility, both on the board and in the water. The buoyancy aid has a long body, which is well suited for SUP use. Suitable for beginners as well as experienced paddlers.

SUP RENTAL FLYTVÄST

FEATURES:

SIZE / COLOUR / ART NR:

DESCRIPTION:

SUP Rental is designed specifically for Stand Up Paddling. SUP Rental is designed to give the user maximum mobility, both on the board and in the water. The life jacket is designed to fit rental business. Each size therefore has its own color to make it easy to keep track on the right size for both users and rental provider.

FLOTATION CLOTHES 50N & PET BOUYANCY AIDS

With smart and stylish flotation clothes, you do not need to change when you go ashore. At sea, they fulfill the same function as a regular buoyancy aid, maintaining your safety. When you go ashore, they work as a lifestyle vest or as a jacket.

With our large selection of vests and jackets, it will be easy to find a favorite that suits you, from a sporty jacket to a timeless vest.

The jackets and vests are approved according to the 50N standard, which means that they keep you afloat by a good margin, but do not help you to turn onto your back or keep your airway clear. Therefore we highly recommend these products to strong swimmers only.

FLIPPER FLOTATION VEST

FEATURES:  

COLOUR AND ART NO:

SIZE: 50-60 kg (XS), 60-70 kg (S), 70-80 kg (M), 80-90 kg (L), 90-100 kg (XL), 100+ kg (XXL)

DESCRIPTION:

Reversible buoyancy aid. With the front and back panels formed from pockets of buoyant foam. Two zippered front pockets. Approved according to the same standard as a SON buoyancy aid.

HAMBLE FLOTATION JACKET

FEATURES:  

COLOUR AND ART NO:

SIZE: 60-70 kg (S), 70-80 kg (M), 80-90 kg (L), 90-100 kg (XL), 100+ kg (XXL)

DESCRIPTION:

Windproof flotation jacket in comfortable materials. Slim foam elements in combination with sleeves in softshell material provide a flexible jacket with a good fit. Four exterior pockets with water-repellent zippers. Detachable crotch strap is included.

AMAROK | MAXIMUM COMFORT

The flotation suit provides buoyancy, warmth, and rain protection in one garment. A flotation suit is a safe and practical choice for going out to sea on those wonderful but cold autumn and winter trips. They fit just as well on the snowmobile ride as at sea. The overalls are made of completely wind and waterproof outer material and have taped seams. In the sleeves there are two cuffs, a PU cuff that you tighten so that water does not flow in, and a surface cuff that you can tighten over your gloves. At the ankles there is an external cuff but no PU cuff. This is so that air collected in the overalls can be evacuated in the event that you fall in with your head first. All models have several fleece-lined pockets, inner pocket, hood and an airy lining. In addition to protection against cooling, flotation suits also protect against the first unpleasant cold shock when you fall into really cold water.

1. SON

2. THERMAL PROTECTION

3. WIND AND WATER PROOF MATERIALS

4. TAPED SEAMS

5. PU CUFFS

6. EXTERNAL CUFFS

7. INTERNAL BRACES

8. LINED POCKETS

AMAROK FLOTATION SUIT

FEATURES:

COLOUR AND ART NO:

5792

5798

SIZE: 50-60 kg (XS), 60-70 kg (S), 70-80 kg (M), 80-90 kg (L), 90-100 kg (XL), 100+ kg (XXL), 100++ kg (XXXL)

DESCRIPTION:

Soft and comfortable floatation suit. Fully waterproof with taped seams. Four outer pockets and two fleece-lined outside pockets. Internal braces. Approved according to the same standard as a buoyancy aid. Remains soft and comfortable to wear at very low temperatures. Buoyancy: 80N.

AMAROK JUNIOR FLOTATION

FEATURES:

COLOUR AND ART NO:

5799

SIZE: 25-30 kg (Child), 30-40 kg (Child), 40-50 kg (Junior)

DESCRIPTION:

Soft and comfortable floatation suit. Fully waterproof with taped seams. Four outer pockets and two fleece-lined outside pockets. Internal braces. Approved according to the same standard as a buoyancy aid. Remains soft and comfortable to wear at very low temperatures. Buoyancy: 80N.

PET BUOYANCY AIDS

BALTIC holds a wide range of buoyancy aids for pets, all equipped with lifting handles, D-ring and reflective patches. Adjustable straps makes the vest fit firmly.

1. RETRO REFLECTIVE PATCHES

3. LIFT HANDLE

2. D-RING

4. ADJUSTABLE STRAPS

SPLASH BUOYANCY AID

NEW
2023

FEATURES:

COLOUR AND ART NO:

0451

0452

SIZE: 0-3 kg (XS), 3-8 kg (S), 8-15 kg (M),
15-40 kg (L), 40+ kg (XL), 40++ kg (XXL)

DESCRIPTION:

Well-balanced dog lifejacket from Baltic, perfect for training dogs to swim, and exercising dogs. Double D-rings for leash, velcro padded collar and belly plate to prevent chafing.

MASCOT BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 0-3 kg (XS), 3-8 kg (S), 8-15 kg (M), 15-40 kg (L), 40+ kg (XL), 40++ kg (XXL)

DESCRIPTION:

A well cut dog buoyancy aid with lifting handle and retro-reflective patch on the back. Wide straps with quick release buckles, D-ring for leash.

PLUTO BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 0-3 kg (XS), 3-8 kg (S), 8-15 kg (M), 15-40 kg (L), 40+ kg (XL), 40++ kg (XXL)

DESCRIPTION:

Pluto is our entry level dog buoyancy aid, with a lifting handle and retro-reflective patches at the back. Webbing straps with fasteners. D-ring for leash attachment.

ZORRO BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 2-5 kg (XS), 5-10 kg (S), 10-25 kg (M), 25+ kg (L)

DESCRIPTION:

Dog buoyancy aid with extra material underneath which provides padding for the straps. Entrance with zipper along the back. Retro-reflective patch and lifting handle on the back. Strap with quick release buckles and D-ring for leash.

MAJA BUOYANCY AID

FEATURES:

COLOUR AND ART NO:

SIZE: 0-3 kg (S), 3-7 kg (M), 7-10 kg (L)

DESCRIPTION:

The Maja pet buoyancy aid has been developed specifically for cats. With a smaller neck opening and an extra under strap the Maja fits a cat perfectly. The buoyancy aid also has a retro-reflective patch at the lifting handle and a D-ring for attaching a leash. This buoyancy aid is manufactured using a durable high visibility fabric.

SAFETY EQUIPMENT SAFETY LINES HARNESSES

A chain is only as strong as its weakest link, which is why quality and reliability of accessories and spare parts are crucial for your Baltic product to continue to be a high-performance quality product.

In addition to carefully selected materials and thorough tests, several of our accessories are approved for international ocean sailing in accordance with the World Sailing OSR standard.

Buoys and safety lines are self-evident accessories on a well-equipped boat, and if the animals are to follow, there is of course a buoyancy aid for them as well.

A lifebuoy belongs to the obvious safety equipment of a boat. **Swedebuoy** and **Rescue Sling** are dragged in the water around the distressed person who grabs the rope and pulls on the buoy. A **Horseshoe buoy** is suitable for quieter water near land or in port. **LifeSaver** is an inflatable horseshoe buoy.

HORSE SHOE BUOY

FEATURES: 

COLOUR AND ART NO:

SIZE: Onesize

DESCRIPTION:

Buoy suitable for calmer waters or in the harbour.

HORSE SHOE BUOY COVER

FEATURES:

FÄRG OCH ART NR:
